Original Title : BUDS2, Windows and Visual C++ Redistributable

Dear All,

we have more and more applications installed on our computers and some of them need a Microsoft Visual C++ Resditributable version.
BUDS2 does not escape from it !

So we have included the MS Visual C++ Redistributable 2013 (x86) version which fits most of the windows configurations for BUDS2 (32 bit and 64 bit !).
But if you have trouble, I invite you to try this tips by installing the previous **versions 2010 and 2012** depending your configuration. It solved most of the cases.

(DO NOT UNINSTALL exisiting version)

PLEASE GO STEP BY STEP

1st : check installed version
 **> Start > Control Panel > Programs > Programs & Features**

3rd : install 32 bit versions (if missing)

4th : Re-do the same action with BUDS2 after restarting it

***

For 32bits & 64bits Operating system (BUDS2 uses Microsoft Visual C++ x86 version**)**
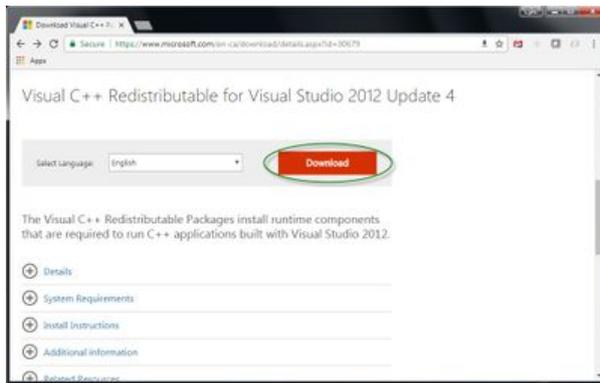

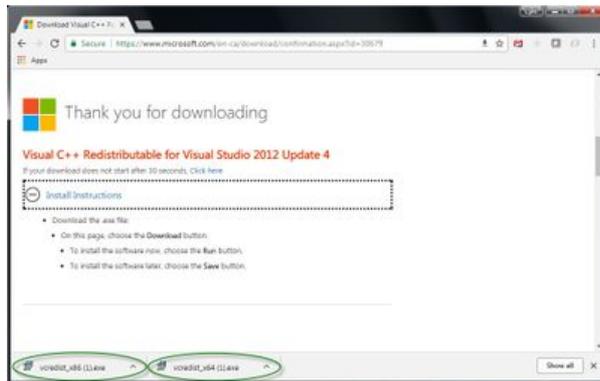

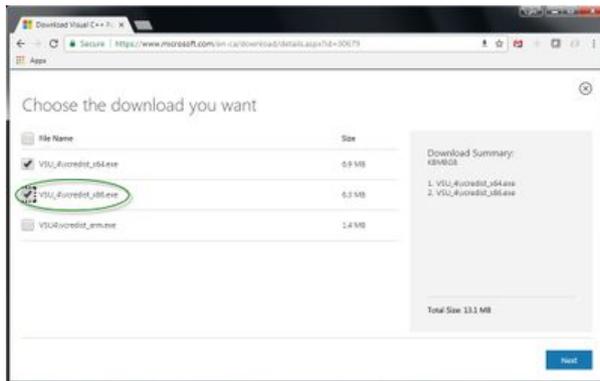

Microsoft Visual C++ 2010 x86 Redistributable
----
https://www.microsoft.com/en-ca/download/details.aspx?id=5555

Microsoft Visual C++ 2012 x86 Redistributable
----
https://www.microsoft.com/en-ca/download/details.aspx?id=30679

• When you click the download on this one, it brings you to another webpage and there will be three options, choose the "VSU_4\vcredist_x86.exe"

In below example both x86 (for 32bits system) and x64 (for 64bits system) have been downloaded.

Note : all Visual C++ Redistributable installer have the same name, whatever it is 2010 or 2012 version ! Only the system version, 32bits or 64bits, will be mentionned. Your browser (ex: Internet Explorer 11) will add a index at the end of the file name, like "(1)".
***

What to do if you even do not see the Microsoft Visual C++ 2013 Redistributable (x86) ? just follow below links

For 32bits or 64bits Operating system
Microsoft Visual C++ 2013 (x86/x64) Redistributable
----
https://www.microsoft.com/en-ca/download/details.aspx?id=40784
follow instruction as for 2012 version above (for x86)

Note : is recommended to keep your Windows up to date with its own Microsoft updates.
